

EMTX - EMERGENCY MEDICAL TECHNICIAN

EMTX110 Emergency Medical Technician Part 01

Credits 6

Fall/Spring

Registration Requirement: RD090 and WR090, or IECC201R and IECC201W, and MTH020, each with a grade of "C" or better; or placement above stated course levels.

Part one of a two-course sequence, this course prepares students for careers as emergency medical technicians (EMT). Topics include airway management, patient assessment, treatment/stabilization for common medical emergencies, and culturally responsive care. In addition, students attend training to obtain their American Heart Association BLS Provider Certification, meeting the requirement for state and national EMT certification exams.

EMTX111 Emergency Medical Technician Part 02

Credits 6

Summer/Winter

Registration Requirement: EMTX110.

Part two of a two-part sequence, this course expands upon the knowledge, skills, techniques, and applications introduced in EMTX110. Integrates assessment skills including the ability to differentiate trauma versus medical emergencies to include the proper management in a pre-hospital setting. Includes preparation for state and national certification exams.
