

EMTX - EMERGENCY MEDICAL TECHNICIAN

EMTX110 Emergency Medical Technician Part 01

Credits 6

Winter

Registration Requirement: RD090 and WR090, or IECC201R and IECC201W, and MTH020, each with a grade of "C" or higher; or placement above stated course levels - Instructor signature required for registration - Please contact emtprogram@mhcc.edu for more information.

Part one of a two-course sequence, this course prepares students for careers as emergency medical technicians (EMT). Topics include airway management, patient assessment, treatment/stabilization for common medical emergencies, and culturally responsive care. In addition, students attend training to obtain their American Heart Association BLS Provider Certification, meeting the requirement for state and national EMT certification exams.

EMTX111 Emergency Medical Technician Part 02

Credits 6

Spring

Registration Requirement: EMTX110 and instructor approval.

Part two of a two-part sequence, this course expands upon the knowledge, skills, techniques, and applications introduced in EMTX110. Integrates assessment skills including the ability to differentiate trauma versus medical emergencies to include the proper management in a pre-hospital setting. Includes preparation for state and national certification exams.

EMTX112 EMT - Emergency Medical Technician, Basic

Credits 12

Winter/Spring

Registration Requirement: RD115, WR115 and MTH060, each with a grade of "C" or higher; or placement above stated course levels; must be 18 years of age at the time of Oregon/National Registry Exam; possess high school diploma or GED; possess a current American Heart Association CPR for Healthcare Provider card; successfully pass background check; successfully pass 10-panel drug screen; and provide current immunizations, including current TB test.

This course represents the first phase of training in the Pre-hospital Emergency Medical Services career structure. The course emphasizes the development of student skills in the recognition of signs/symptoms of illness and injuries and the appropriate interventions in emergency treatment. In addition, the student is instructed on emergency vehicle operations and work safety. An Emergency Medical Technician is a critical member of the Emergency Services Team.
