The Individualized Mechanical Program of Repair Technicians (IMPORT) program allows students to study at MHCC and gain work experience while training as service techs for auto dealers and repair shops. MHCC's auto shops are filled with some of the finest, most up to date training supplies and equipment on the market.

The IMPORT program is two full years of training, including fall, winter, spring and summer terms both years. Graduates will earn an AAS degree, as well as a full year of work experience in a dealer repair center such as Acura, BMW, Honda, Nissan, Chevrolet, and more. IMPORT dealers and shops see MHCC students as their "service technicians of the future."

Cohorts begin in fall (even years) and summer (odd years).

Program Outcomes

At the completion of this program, students should be able to:

- Demonstrate safe shop practices and hazardous material handling
- Diagnose and repair electrical systems
- Diagnose and repair engine performance systems
- Diagnose and repair emission systems
- Diagnose and repair internal combustion engine systems
- Diagnose and repair automatic transmission and transaxles systems
- Diagnose and repair manual drive train and axles systems
- Diagnose and repair brakes systems
- Diagnose and repair automotive steering and suspension systems
- Diagnose and repair automotive heating and air conditioning systems
- Perform minor vehicle services

General education courses (such as math, writing, health, etc.) can be taken during any term, or before starting the program.

Please note: All core (AM) courses must be completed with a grade of "C" or better, and must be completed within 5 years of starting the program.
