## Curricular Outcomes

At the completion of this curriculum, students should be able to:

- Enter upper-division business courses at a university
- Demonstrate an understanding of critical thinking in business
- Describe basic business functions
- Apply basic accounting principles to analyze and classify transactions
- Prepare basic financial statements
- Explain the legal concepts related to business

For the most part, courses that fulfill general education requirements can be taken in any term. Students should work with the faculty adviser(s) to create a custom academic plan based on course placement levels, career goals, and full time/part time status.

Admitted students may also log on to Navigate (https://mhcc.campus.eab.com/home/) to start the process of building an academic plan based on this major and can notify an adviser for review.
