If you want to be a teacher, you will be making a number of choices:

- What age group do you want to teach?
- What subject do you want to teach?
- Will you transfer to a school with an undergraduate (four-year / bachelor's) or graduate (fifth year / master's) teaching program?
- Which college do you want to transfer to?

The answer to these questions will help you figure out the right courses to take.

Students interested in teaching at the **elementary** level (Pre-K to eighth grade) will want to follow a course of study that is multidisciplinary since they will teach many subjects. There are a number of Elementary Teacher Education programs in the Portland area.

Students interested in teaching at the **secondary** (middle or high school) level will want to follow a course of study that reflects the major area they wish to teach (e.g., math, social science, science, health/PE, language arts, etc.)

All students should work with an adviser to make an education plan.

## Transfer Outcomes

The primary objective of MHCC's transfer programs is to fulfill general education requirements and prepare students for transferring to bachelor's degree programs. MHCC identifies the following core institutional outcomes as program outcomes for its transfer programs:

- Communication
- Cultural competence
- Quantitative reasoning and analysis
- Information literacy
- Critical thinking and problem solving
- Skills to promote personal wellness
- Civic and social responsibility

## Courses for Elementary Education Majors

Code	Title	Credits
ED200	Introduction to Education ★	3
ED261	Child Development Principles	4
MTH211	Fundamentals of Elementary Mathematics I	4
MTH212	Fundamentals of Elementary Mathematics II	4
MTH213	Fundamentals of Elementary Mathematics III	4
