

STERILE PROCESSING TECHNICIAN - SHORT-TERM TRAINING

Short Term Training | mhcc.edu/SurgTechCurriculumInfo (<https://www.mhcc.edu/SurgTechCurriculumInfo/>)

Sterile Processing techs clean and prepare medical tools, supplies, and equipment for use in hospitals, clinics, and other healthcare sites. They ensure each item is sterile and safe to use. This course teaches people how to do this kind of work and helps them get ready for jobs in the healthcare field. This program prepares students to take the CRCST (Certified Registered Central Service Technician) exam, and it follows the rules set by the IAHCMM (International Association of Healthcare Central Service Material Management.) The course includes 60 hours of didactic instruction and 30 hours of lab instruction.

This video (<http://youtu.be/GAOCMDbDvRQ/>) depicts the role of a Sterile Processing Technician.

Please note: 400 hours of hands-on experience verified by employer is also required for eligibility for the IAHCMM exam. This course does not fulfill that requirement.

This program is not financial aid eligible. However, the related Basic Health Care certificate (<https://catalog.mhcc.edu/programs-majors/basic-health-care-certificate/>) and AGS in Health Professions Exploration (AGSH) degree (<https://catalog.mhcc.edu/degree-certificate-requirements/ags-health-professions-exploration/>) are eligible. Students taking the Sterile Processing Technician course as part of a related program may be eligible for aid and should work with their financial aid adviser.
